ESPORTS TEAM LOGO PACK

CLUTCHCAST

- ✓ Livestreaming
- ✓ Non-stream Content
- ✓ Auto MemeCoins
- ✓ Fan & Creator Rewards
- ✓ Early Talent Funding

ESPORTS MATCH HIGHLIGHTS

THE NEXT-GENERATION ECOSYSTEM FOR ESPORTS SPONSORSHIP

CREATOR

- Creates a profile, connects or auto-generates a wallet, and gets a Creator Coin — their own financial ecosystem.
- Creator posts content
- Creator earns Percentage of every token purchase
- Share of trading fees
- Streaming bonuses and staking yield
- Tips & donations

FAN

- Fans invest & interact
- Fans buy the creator's token, trade, stake, or unlock content. More belief → more investment → more funding.
- Fans earn
- Token appreciation
- Exclusive access, NFTs, gated streams, merch, meetups
- Governance & voting rights

TEAM/SPONSOR

- Target Users:
- Emerging athletes
- Small clubs & academies
- Streamers
- Gamers
- Creators without sponsors
- Fitness influencers
- Market Opportunity
- Creator economy → \$250B+
- Tokenizing early talent through social proof

ABOUT US

Elaborate on what you want to discuss.

VISION

To become the global launchpad for the next generation of talent - allowing fans to financially support and benefit from creators, whether they stream, post, or compete. Anyone can become an investor in future stars.

TABLE OF CONTENTS

STATS & NUMBERS

- Bonding curve & liquidity fees
- Streaming revenue %
- Subscription tiers
- Launch fees for verified creators
- Advertising & NFT marketplace

Tokenizing Talent: From Bonding Curves to Global GMV

CLUTCHCAST

PROBLEM

Creators, athletes, beginners, and small clubs lack early financial support. No stable way to monetize
Social platforms give fans zero upside

SOLUTION

Funding system powered by their token
Fan investors who share in their journey
Blockchain-connected reward system

HOW CLUTCHCAST WORKS

Creator signs up
Creator posts content
Fans invest & interact
Creator earns
Fans earn

WHY IT WORKS

Web3 transparency
Fan investment + creator ownership
Tokens with real utility
Livestream + traditional content posting = Pump.fun + Instagram + Twitch + Chiliz + Patreon

TOKENOMICS OVERVIEW

Each creator auto-generates a MemeCoin launched via bonding curve, later tradable on DEX.
Creator Rewards
Fan Rewards

MARKET OPPORTUNITY

Creator economy → \$250B+
SocialFi and Web3 adoption booming globally
Tokenizing early talent through social proof
MemeCoin culture expanding

UNIQUE SELLING POINTS

BUSINESS MODEL

Bonding curve & liquidity fees
Streaming revenue %
Subscription tiers
Launch fees for verified creators

BLOCKCHAIN OPTIONS

Solana (fast, cheap, perfect for MemeCoins)
Base (popular, Coinbase-backed)
Polygon (good for mass adoption)

MARKET ANALYSIS

Emerging athletes
Small clubs & academies
Streamers, Gamers
Creators without sponsors

ANTI-DUMP & VOLATILITY PROTECTION

Unlike standard MemeCoins, ClutchCast coins carry deep utility to prevent volatility:

- Staking Multipliers: Long-term holders earn higher percentages of creator trading volume.
- Gated Access: Tokens are required to unlock exclusive livestreams and digital goods.
- Creator Retention: 100% of tips go to creators, ensuring platform loyalty.

STATS & NUMBERS

ClutchCast is the first hybrid SocialFi platform combining Livestreaming, Bonding Curve Tokenization, and Traditional Content Posting. By allowing every athlete or creator to launch a tradable MemeCoin, we turn followers into Fan Investors who share in trading volume and ecosystem growth. This model capitalizes on the \$250B+ Creator Economy by tokenizing early talent through social proof.
